To the Editor:

I support Jennifer Berkenstock for probate judge for the towns of Marlborough, East Hampton, East Haddam and Portland, because she is committed to service, integrity and the rule of law. Jennifer is a person who can be trusted to maintain the confidentiality of the wide range of sensitive issues the probate court deals with affecting children, the elderly, and persons with disabilities. She is a kind, compassionate person and these are qualities that are very desirable for an elected official we depend on to protect the rights of individuals.

It is important to point out as well, that Jennifer Berkenstock intends to be a full-time probate judge, to provide prompt, efficient service to the towns she serves. She will work tirelessly, providing those involved in probate matters an approachable, friendly environment. Jennifer is by nature, dedicated, detail-oriented and hard-working, and I feel confident she will do the best job for us. That is why I will be voting for Jennifer Berkenstock for probate judge in November.
